

Nature Fairy Printables

from **GlueStick**

These Nature Fairy Printables are great for seasonal crafting all year long. Cover them in spring or summer flowers to celebrate new growth, or crispy autumn leaves for the splendor of fall. In the winter, dried florals, glitter, or pine cones can make beautiful fairies. Some of our fairies don't have any clothes or skirts around their midsection so it's easier for you to draw your own creation.

Get creative and make them your own! We can't wait to see your beautiful creations.

We have the best results printing these fairies on cardstock or heavy paper. Depending on how heavy your chosen materials are, you may need a glue stick, white glue, or a hot glue gun to get them to stick. Only use a hot glue gun with permission and supervision from an adult.

When you're done, ask an adult share them on Facebook or Instagram and tag @gluestickapp for a chance to be featured in our email newsletter sent to GlueStick families all over.

GlueStick printables are provided to our subscribers for personal and educational use only.
